Your Estimated Benefits

*Retirement	You have earned enough credits to qualify for benefits. At your current earnings rate, if you continue working until...	
	your full retirement age (67 years), your payment would be about.....	\$ 1,986 a month
	age 70, your payment would be about.....	\$ 2,468 a month
	age 62, your payment would be about.....	\$ 1,376 a month
*Disability	You have earned enough credits to qualify for benefits. If you became disabled right now, your payment would be about.....	
		\$ 1,956 a month
*Family	If you get retirement or disability benefits, your spouse and children also may qualify for benefits.	
*Survivors	You have earned enough credits for your family to receive survivors benefits. If you die this year, certain members of your family may qualify for the following benefits:	
	Your child.....	\$ 1,467 a month
	Your spouse who is caring for your child.....	\$ 1,467 a month
	Your spouse, if benefits start at full retirement age.....	\$ 1,956 a month
	Total family benefits cannot be more than.....	\$ 3,568 a month
	Your spouse or minor child may be eligible for a special one-time death benefit of \$255.	
Medicare	You have enough credits to qualify for Medicare at age 65. Even if you do not retire at age 65, be sure to contact Social Security three months before your 65th birthday to enroll in Medicare.	
	* Your estimated benefits are based on current law. Congress has made changes to the law in the past and can do so at any time. The law governing benefit amounts may change because, by 2035, the payroll taxes collected will be enough to pay only about 80 percent of scheduled benefits.	
	We based your benefit estimates on these facts:	
	Your date of birth (please verify your name on page 1 and this date of birth).....	April 5, 1960
	Your estimated taxable earnings per year after 2018.....	\$50,653
	Your Social Security number (only the last four digits are shown to help prevent identity theft).....	XXX-XX-1234

How Your Benefits Are Estimated

To qualify for benefits, you earn "credits" through your work — up to four each year. This year, for example, you earn one credit for each \$1,410 of wages or self-employment income. When you've earned \$5,640, you've earned your four credits for the year. Most people need 40 credits, earned over their working lifetime, to receive retirement benefits. For disability and survivors benefits, young people need fewer credits to be eligible.

We checked your records to see whether you have earned enough credits to qualify for benefits. If you haven't earned enough yet to qualify for any type of benefit, we can't give you a benefit estimate now. If you continue to work, we'll give you an estimate when you do qualify.

What we assumed — If you have enough work credits, we estimated your benefit amounts using your average earnings over your working lifetime. For 2020 and later (up to retirement age), we assumed you'll continue to work and make about the same as you did in 2018 or 2019. We also included credits we assumed you earned last year and this year.

Generally, the older you are and the closer you are to retirement, the more accurate the retirement estimates will be because they are based on a longer work history with fewer uncertainties such as earnings fluctuations and future law changes. We encourage you to use our online Retirement Estimator at www.socialsecurity.gov/estimator to obtain immediate and personalized benefit estimates.

We can't provide your actual benefit amount until you apply for benefits. And that amount may differ from the estimates stated above because:

- (1) Your earnings may increase or decrease in the future.
- (2) After you start receiving benefits, they will be adjusted for cost-of-living increases.

- (3) Your estimated benefits are based on current law. The law governing benefit amounts may change.
- (4) Your benefit amount may be affected by military service, railroad employment or pensions earned through work on which you did not pay Social Security tax. Visit www.socialsecurity.gov to learn more.

Windfall Elimination Provision (WEP) — In the future, if you receive a pension from employment in which you do not pay Social Security taxes, such as some federal, state or local government work, some nonprofit organizations or foreign employment, and you also qualify for your own Social Security retirement or disability benefit, your Social Security benefit may be reduced, but not eliminated, by WEP. The amount of the reduction, if any, depends on your earnings and number of years in jobs in which you paid Social Security taxes, and the year you are age 62 or become disabled. For more information, please see *Windfall Elimination Provision* (Publication No. 05-10045) at www.socialsecurity.gov/WEP.

Government Pension Offset (GPO) — If you receive a pension based on federal, state or local government work in which you did not pay Social Security taxes and you qualify, now or in the future, for Social Security benefits as a current or former spouse, widow or widower, you are likely to be affected by GPO. If GPO applies, your Social Security benefit will be reduced by an amount equal to two-thirds of your government pension, and could be reduced to zero. Even if your benefit is reduced to zero, you will be eligible for Medicare at age 65 on your spouse's record. To learn more, please see *Government Pension Offset* (Publication No. 05-10007) at www.socialsecurity.gov/GPO.

Total Social Security and Medicare taxes paid over your working career through the last year reported on the chart above:

Estimated taxes paid for Social Security:	Estimated taxes paid for Medicare:
You paid: \$70,698	You paid: \$17,020
Your employers paid: \$72,634	Your employers paid: \$17,020

Note: Currently, you and your employer each pay a 6.2 percent Social Security tax on up to \$137,700 of your earnings and a 1.45 percent Medicare tax on all your earnings. If you are self-employed, you pay the combined employee and employer amount, which is a 12.4 percent Social Security tax on up to \$137,700 of your net earnings and a 2.9 percent Medicare tax on your entire net earnings.

*If you have earned income of more than \$200,000 (\$250,000 for married couples filing jointly), you must pay 0.9 percent more in Medicare taxes.

Help Us Keep Your Earnings Record Accurate

You, your employer and Social Security share responsibility for the accuracy of your earnings record. Since you began working, we recorded your reported earnings under your name and Social Security number. We have updated your record each time your employer (or you, if you're self-employed) reported your earnings.

Remember, it's your earnings, not the amount of taxes you paid or the number of credits you've earned, that determine your benefit amount. When we figure that amount, we base it on your average earnings over your lifetime. If our records are wrong, you may not receive all the benefits to which you're entitled. Review this chart carefully using your own records to make sure our information is correct and that we've recorded each year you worked. You're the only person who can look at the earnings chart and know whether it is complete and correct.

Some or all of your earnings from last year may not be shown on your *Statement*. It could be that we still were

processing last year's earnings reports when your *Statement* was prepared. Your complete earnings for last year will be shown on next year's *Statement*. Note: If you worked for more than one employer during any year, or if you had both earnings and self-employment income, we combined your earnings for the year.

There's a limit on the amount of earnings on which you pay Social Security taxes each year. The limit increases yearly. Earnings above the limit will not appear on your earnings chart as Social Security earnings. (For Medicare taxes, the maximum earnings amount began rising in 1991. Since 1994, all of your earnings are taxed for Medicare.)

Call us right away at 1-800-772-1213 (7 a.m.–7 p.m. your local time) if any earnings for years before last year are shown incorrectly. Please have your W-2 or tax return for those years available. (If you live outside the U.S., follow the directions at the bottom of page 4.)

SSDI vs. SSI

Social Security Disability Insurance	Supplemental Security Income
Payments come from the Social Security trust funds and are based on a person's earnings.	Payments come from the general treasury fund, NOT the Social Security trust funds. SSI payments are not based on a person's earnings.
An insurance that workers earn by paying Social Security taxes on their wages.	A needs-based public assistance program that does not require a person to have work history.
Pays benefits to disabled individuals who are unable to work, regardless of their income and resources.	Pays disabled individuals who are unable to work AND have limited income and resources.
Benefits for workers and for adults disabled since childhood. Must meet insured status requirements.	Benefits for children and adults in financial need. Must have limited income and limited resources.

Definition of Disability - Adult

The Social Security Act defines disability as:

- a person who cannot work due to a severe medical condition that has lasted, or is expected to last, at least one year or result in death; or
- the person's medical condition must prevent him or her from doing substantial gainful employment – work that he or she did in the past, and it must prevent the person from adjusting to other work.

How is a Disability Determination Made?

Five-step process:

1. Are you working?
2. Is your medical condition “severe” ?
3. Does your impairment(s) meet or medically equal a listing?
4. Can you do the work you did before?
5. Can you do any other type of work?

SSI & Homeless

Social Security defines “homeless” as:

A **transient** – an individual with no permanent living arrangement, i.e., no fixed place of residence. A transient is neither a member of a household nor a resident of an institution.

If you are homeless, you can receive your SSI benefits by:

- having them deposited into your personal bank account;
- having your benefits mailed to a third party;
- having a relative or other third party be assigned as your representative payee; or
- having your benefits directed to a Direct Express bank card.

We'll tell you our decision...

- When the state agency makes a determination on your case, we'll send a letter to you.
- If approved, the letter will show the amount of your benefit, when your payments start, and your reporting responsibilities.
- If not approved, the letter will explain why and tell you how to appeal the determination if you don't agree with it.

Medicare and Medicaid

Medicare – federal health insurance program for people 65 or older and people who have been getting disability benefits for 24 consecutive months.

Medicaid – state health program for people with low incomes and limited resources.

- In most states, children who get SSI qualify for Medicaid.
- In many states, Medicaid comes automatically with SSI eligibility.

Representative Payee

- More than eight million people, who get monthly Social Security or Supplemental Security Income (SSI) benefits, need help managing their money.
- Social Security's Representative Payment Program appoints a relative, friend, or other interested party to serve as the 'representative payee' who receives and manages the Social Security or SSI benefits for anyone who cannot manage or direct the management of his or her benefits themselves.
- We thoroughly investigate those who apply to be representative payees to protect the interests of Social Security beneficiaries, because a representative payee receives the beneficiary's payments and is given the authority to use them on the beneficiary's behalf.
